

Class R. Weekly learning plan. 4th May 2020

This week we are still continuing our topic of Growing Plants. We are continuing story telling using puppets and writing sentences. I have been so impressed with all the growing plants the children have started at home. Through our tapestry contact we are continuing to share the progress of our plants and recording these in our plant diaries.

I am continuing to add 4 or 5 daily videos and learning activities to the Tapestry Website. New Activities will appear on the website by 8am daily. Thank you to everyone who has responded to these. I am really enjoying seeing all of your artwork and am currently compiling these into a slide show to share with you soon.

I have also sourced some good websites that provide quality E books. I will refer to particular recommended texts throughout the week.

Suggested Daily Fitness activities include:

Exercise daily with Hey Duggee! On the Hey Duggee Official YouTube channel there are lots of videos for your children to join in with some dance or exercise.

https://www.youtube.com/playlist?list=PLmwmigPkv3_DAHo69Q2F1U0wH9C-jkMbs

For a slightly more calming and gentle exercise there's also At Home Yoga with Duggee. Your child can follow the children's moves in the video, no equipment required.
